

Declarative agent with Copilot Studio

Create your agent

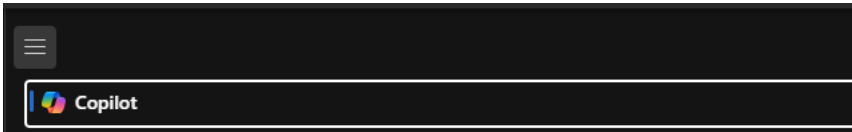

We are going to recreate the learning coach ([copilot-pro-dev-samples/samples/da-LearningCoach](https://github.com/pnp/copilot-pro-dev-samples/tree/main/samples/da-LearningCoach) at main · pnp/copilot-pro-dev-samples · GitHub)

- Go to <https://m365.cloud.microsoft/chat>
- Click **Create an agent**
- You can use the describe functionality but for this exercise we are going to use Configure.
- Click **Configure**
- Change the icon to <https://github.com/pnp/copilot-pro-dev-samples/blob/main/samples/da-LearningCoach/appPackage/color.png>
- Name the agent “My Learning Coach”
- Give it a description, if you want, you can download the description from [copilot-pro-dev-samples/samples/da-LearningCoach/appPackage/loc/manifest.en-US.json](https://github.com/pnp/copilot-pro-dev-samples/blob/main/samples/da-LearningCoach/appPackage/loc/manifest.en-US.json) at main · pnp/copilot-pro-dev-samples · GitHub
- Give it the instructions, if you want, you can download the instructions from [copilot-pro-dev-samples/samples/da-LearningCoach/appPackage/instruction.txt](https://github.com/pnp/copilot-pro-dev-samples/blob/main/samples/da-LearningCoach/appPackage/instruction.txt) at main · pnp/copilot-pro-dev-samples · GitHub
- Enable Code interpreter
- Enable image generator
- Add up to 6 conversation starters, if you want, you can download the conversation starters from [copilot-pro-dev-samples/samples/da-LearningCoach/appPackage/loc/manifest.en-US.json](https://github.com/pnp/copilot-pro-dev-samples/blob/main/samples/da-LearningCoach/appPackage/loc/manifest.en-US.json) at main · pnp/copilot-pro-dev-samples · GitHub
- Test your agent with some example chats
- Click **Create**

Test your Agent in Word

- Go to <https://www.microsoft365.com/launch/word>
- Click **Blank document**
- Click **Copilot**

- Open the Copilot Menu option

- Select your agent
- Interact with your agent.

Create your agent -advanced version

We are going to recreate the learning coach ([copilot-pro-dev-samples/samples/da-LearningCoach at main · pnp/copilot-pro-dev-samples · GitHub](https://github.com/pnp/copilot-pro-dev-samples/tree/main/samples/da-LearningCoach))

- Go to <https://copilotstudio.microsoft.com/>
- Click **Agents**
- Click **Copilot for Microsoft 365**
- Click **Agents**
- Click **New agent**
- Click **Skip to configure**
- Change the icon to <https://github.com/pnp/copilot-pro-dev-samples/blob/main/samples/da-LearningCoach/appPackage/color.png>
- Name the agent “My Learning Coach”
- Give it a description, if you want, you can download the description from [copilot-pro-dev-samples/samples/da-LearningCoach/appPackage/loc/manifest.en-US.json at main · pnp/copilot-pro-dev-samples · GitHub](https://github.com/pnp/copilot-pro-dev-samples/blob/main/samples/da-LearningCoach/appPackage/loc/manifest.en-US.json)
- Give it the instructions, if you want, you can download the instructions from [copilot-pro-dev-samples/samples/da-LearningCoach/appPackage/instruction.txt at main · pnp/copilot-pro-dev-samples · GitHub](https://github.com/pnp/copilot-pro-dev-samples/blob/main/samples/da-LearningCoach/appPackage/instruction.txt)
- Enable Code interpreter
- Enable image generator
- Add up to 6 conversation starters, if you want, you can download the conversation starters from [copilot-pro-dev-samples/samples/da-LearningCoach/appPackage/loc/manifest.en-US.json at main · pnp/copilot-pro-dev-samples · GitHub](https://github.com/pnp/copilot-pro-dev-samples/blob/main/samples/da-LearningCoach/appPackage/loc/manifest.en-US.json)
- Test your agent with some example chats
- Click **Create**

Exercise

1. Augment your agent so it also supports CodeInterpreter and ImageGeneration
2. Generate from scratch a new agent that is going to help the students from Bellow University find information about the policy to change their master's degree.

Download the source document from: [Content/Bellows College Master Degree Change.docx at main · jesegher/Content](#)
